

Matthew Grieshop

Associate Professor at Michigan State University

East Lansing, MI, US

An expert in Cultural, Biological and chemical pest management for organic production systems

Biography

The biggest impacts of my research has been in the areas of integration of livestock in apple production (4-5 farms have adopted this practice in the Upper Midwest) and improvement of the application and refinement of on-site and open rearing biological control systems in greenhouses (Numerous greenhouses in the Kalamazoo area have increased their use of these systems since my lab's involvement).

Industry Expertise

Floriculture and Horticulture, Education/Learning, Writing and Editing

Areas of Expertise

Invasive Pests, Integrated Pest Management, Biological Control, organic agriculture, Extension

Education

Kansas State University

Ph.D.

Montana State University-Bozeman

M.S.

University of California at Santa Cruz

B.A.
