

Megan Ennes

Assistant Curator at University of Florida

Gainesville, FL, US

Megan Ennes supports science interests using family museum programming, professional development and climate change communication research.

Biography

Megan Ennes is the assistant curator of Museum Education and director of the Thompson Earth Systems Institute at the Florida Museum of Natural History. Her research focuses on how museums can support the science interests and career aspirations of underrepresented groups through family programming and civic engagement. Megan also conducts research on how to help museum educators and scientists more effectively engage in climate change communication with the public.

Areas of Expertise

Civic Engagement for the Environment, Climate Change Education, Family Science, Museum Education, Science Career Aspirations
