

Molly Jacobs

Associate Professor at University of Florida

Gainesville, FL, US

Molly Jacobs conducts research on health equity, health disparities and multilevel analysis of the social determinants of health.

Biography

Dr. Molly Jacobs has published across the fields of medicine, public health, health economics, and health services research. Her work focuses on evaluating health outcomes, utilization, and access as well as the cost effectiveness of targeted interventions and programs. Dr. Jacobs engages in the design, implementation, and evaluation of health interventions and the development of quasi-experimental analyses through interdisciplinary research grants from NIH and HRSA. She utilizes econometrics, data science, and machine learning approaches to understand and mitigate health inequities through increased understanding of the social determinants of health.

Areas of Expertise

Multilevel Analysis, Health Equity, Health Disparities, Social Determinants of Health
