Norbert Schmitz

Associate Professor of Psychiatry & Associate Member, Department of Epidemiology, Biostatistics and Occupational Health at Diabetes Canada

Montreal, QC, CA

Dr Schmitz's research focuses on the role of lifestyle and psychological problems as risk factors for the development of type 2 diabetes.

Norbert Schmitz is an Associate Professor (tenured) in the Department of Psychiatry and an Associate Member in the Department of Epidemiology and Biostatistics at McGill University, Montreal. He is a researcher at the Douglas Mental Health University Institute and a researcher at the Montreal Diabetes Research Center. Dr Schmitz's research focuses on the role of lifestyle/behavioral factors and psychological problems as risk factors for the development of type 2 diabetes and as risk factors for poor health outcome in people with type 2 diabetes. Prior to joining McGill University in 2004, Dr Schmitz was an Assistant Professor at the Department of Psychosomatic Medicine at Heinrich-Heine-University in Duesseldorf, Germany, and Director of the Research Unit Public Mental Health. Dr Schmitz obtained his PhD in Statistics from the University of Dortmund (1995) and a second PhD in Epidemiology from Heinrich-Heine-University in Duesseldorf, Germany (2002).
