

# **Paulina Jaramillo**

**Professor at Carnegie Mellon University**

Pittsburgh, PA, US

Paulina Jaramillo is currently involved in research to understand the social, economic and environmental implications of energy consumption.

---

## **Biography**

Dr. Paulina Jaramillo's past research has focused on life cycle assessment of energy systems with an emphasis on climate change impacts and mitigation research. As a professor at Carnegie Mellon University, she is involved in key multi-disciplinary research projects to better understand the social, economic and environmental implications of energy consumption and the public policy tools that can be used to support sustainable energy development and consumption. She is now the Co-Director of the Green Design Institute and has started pursuing research about infrastructure systems for global development.

---

## **Industry Expertise**

Energy, Public Policy, Education/Learning

---

## **Areas of Expertise**

Sustainable Engineering, Engineering and Public Policy, Electric Power Systems, Green Design, Energy, Climate and Energy Decision Making, Energy Systems, Resilient Systems, Energy Policy, Life Cycle Analysis

---

## **Education**

**Carnegie Mellon University**

Ph.D. Civil and Environmental Engineering

**Carnegie Mellon University**

M.S. Civil and Environmental Engineering

**Florida International University**

B.S. Civil and Environmental Engineering
