---

## Biography

Philip Hunt is a Coach, Speaker and Professional Development Consultant who specialises in the area of management and leadership. He has helped many clients including numerous ASX listed companies, throughout Australia to develop their skills to lead their businesses to success. With over 20 years of applied business experience in both the public and private sector, Phil can lead the Behavioural Change Development required to turn your leaders into great leaders. Phil has worked in the retail, financial, education and healthcare industries and for much of that time as leader of teams. For the majority of his time in business, Phil has been on a mission to expose the unconventional, business-best practices of globally admired leaders. As a leadership expert, Phil has dedicated his career to helping leaders and managers practice the art of leadership and build great companies, where great people can do great work. His goal is to create a movement of leaders who choose to defy mediocrity, take charge of their success at work and make a difference in their own little corner of the world. The youngest of four children, Phil grew up on a dairy farm and seen firsthand the daily struggles of a job that required 24/7 attention. He learnt at a young age, the more effort you put into something, the greater the rewards and opportunities that become available. Many adventures were had on the family farm and it continues to be his spiritual home. With three children, Phil understands how important it is to provide an environment where people are given the opportunity to prosper and grow. Just like children who look to their parents for guidance and leadership, your team members require the leader of the ship to be someone who strives for excellence in all that you do. Using the skills gained through experience and education, Phil personalizes your presentations and training programs to ensure the enhancement of the desired outcomes you require.
