

Diana Wilkie

Professor at University of Florida

Gainesville, FL, US

Diana Wilkie has devoted her research program to cancer pain and sickle cell disease management, palliative care and end-of-life issues.

Biography

Diana Wilkie, a member of the National Academy of Medicine, has devoted her research program to cancer pain and sickle cell disease management, palliative care and end-of-life issues. She also specializes in the use of informatics to promote patient-centered care, support big data science and develop biobehavioral therapies for cancer pain. She has created a tablet-based pain report system that allows a patient to describe their pain and recently completed a randomized clinical trial testing the effects of computerized pain tools on pain control for cancer patients receiving hospice care. Diana's research is also dedicated to eliminating health disparities.
