

Robin Marc Dufour, M.App.Sc.

Principal Hydrogeologist at Global Water Experts

Lima, Lima Province, PE

Mr. Dufour is currently managing the newly opened office of DHI
Peru

Robin received his master degree in Hydrogeology from the University of Neuchatel, Switzerland. Robin is an expert in FEFLOW, Modflow Surfact, Inverse Modelling and Sensitivity Analysis (PEST) for saturated and non-saturated flow systems. Robin is also specialist in ArcGIS, MATLAB, and 3D Geomodeller (a high level 3D geology modelling software) as support for the model development and hydrogeology studies. In parallel to his position at DHI, he is currently working on his Ph.D. of Hydrogeology focusing on numerical flow modelling optimization for mine hydrogeology projects. Robin is currently leading hydrogeological numerical modellers for several mine site projects in Peru. All of these projects have seepage analysis related to mine waste facilities and mine dewatering components.

Mining and Metals, Energy, Sanitation and Waste Management, Mechanical/Industrial Engineering, Management Consulting, Precious Metals / Minerals

Groundwater Modelling, Hydrogeology, Numerical Flow Models

Université de Neuchâtel

Msc Geology (Bs) Hydrogeologie (Ms)
