

Ronald Stein, P.E.

Author at Energy Literacy Consultant

Tustin, CA, US

To educate the public to be more energy literate.

Ronald Stein, P.E., Energy Consultant on Energy Literacy, Ambassador for Energy & Infrastructure, Co-author of the Pulitzer Prize nominated book "Clean Energy Exploitations", policy advisor on energy literacy for The Heartland Institute, and The Committee for a Constructive Tomorrow, and National TV Commentator- Energy & Infrastructure with Rick Amato. Recent Energy Literacy Op Ed articles may be viewed at: <https://www.americaoutloud.news/author/ronald-stein-p-e/> Ronald Stein, P.E. is an engineer, energy consultant, speaker, author of books and articles on energy, environmental policy, and human rights, and Founder of PTS Advance, a California based company. Ron advocates that energy literacy starts with the knowledge that renewable energy is only intermittent electricity generated from unreliable breezes and sunshine, as wind turbines and solar panels cannot manufacture anything for the 8 billion on this planet. A sampling of recent articles may be viewed at: <https://www.americaoutloud.news/author/ronald-stein-p-e/> World leaders continue experiencing a "dangerous delusion" of a global transition to "just electricity" that that they believe will eliminate the use of the oil derivatives manufactured from raw crude oil that made society achieve so much in a few centuries. As most know, wind turbines and solar panels only generate occasional electricity, but manufacture nothing for humanity. The elephant in the room that no one wants to discuss is that crude oil is the foundation of our materialistic society as it is the basis of all products and fuels demanded by the 8 billion on this planet. It's shocking that policymakers are oblivious to the reality that wind turbines and solar panels do different things than crude oil. 1. "Renewables" such as wind turbines and solar panels ONLY exist to generate occasional electricity under favorable weather conditions, as they CANNOT make tires, toilet paper, iPhones, or any products or transportation fuels to support lifestyles and economies around the world! 2. No one uses crude oil in its raw form. Simplistically, "Big Oil" only exists because of humanity's addiction to the products and fuels made from oil! 3. Crude oil, on the other hand, manufactures everything for the 8 billion on this planet, i.e., products, and transportation fuels.

2022 Pulitzer Prize nomination

Dr. Jay Lehr, following his one-hour Podcast with the co-authors Ronald Stein and Todd Royal has officially submitted the book Clean Energy Exploitations ? Helping citizens understand the environmental and humanity abuses that support ?clean? energy? as a Nominee for the 2022 Pulitzer Prize competition in the General Nonfiction category. Pulitzer Prize Winners and Finalists will be announced in April 2022.

Founder and Ambassador for Energy & Infrastructure

Ronald Stein has authored hundreds of Op Ed articles that focus on energy literacy and co-authored with Todd Royal: The 2019 book Energy Made Easy ? Helping Citizens become Energy Literate; and the 2020 book Just GREEN Electricity ? Helping Citizens Understand a World without Fossil Fuels; and the 2021 Pulitzer Prize Nominated book Clean Energy Exploitations - Helping Citizens Understand the Environmental and Humanity Abuses that Support "Clean" Energy.

Renewables only generate electricity, but manufacture nothing for society.
