

# **Sanchoy Das**

**Professor at New Jersey Institute of Technology**

Newark, NJ, US

Sanchoy Das's current research is primarily focused on supply chains and health care systems.

---

## **Biography**

Sanchoy Das is professor of industrial engineering at the New Jersey Institute of Technology, where he teaches supply chain engineering and logistics modeling. He received his PhD from Virginia Tech. His research passion is supply chains ? that remarkable cocktail of logistics, engineering, business operations management and data driven technology that brings products and services to our doorstep. He has published numerous research articles on the topic and his research investigates how companies are developing and pivoting the supply chains to meet the needs of fast fulfillment.

---
