## **Biography**

Experienced manager of people and projects with superior leadership and organizational skills. Over seven years experience in Corporate Financial Planning and Analysis. Passed all four sections of the CPA Exam on first attempt. I've been called Liberace at the keyboard with my ability to quickly construct financial models. I'm equally at ease managing groups and projects of all sizes. I've spent the last several years gaining experience at a small company working with all levels of the organization to provide the business intelligence necessary to build operating and strategic plans, as well as manage the variable compensation for a sales force of over 175.. I'm looking to take my career to the next level in a position that uses both my Finance and Management experience and abilities.
