Ingeniería Sistemas Informáticos

Accomplishments

Certified Scrum Master

The Certified ScrumMaster plays an important role in applying Scrum, helping the project team use Scrum properly and increasing the likelihood of team success; as such, it's essential they understand Scrum values, practices, and application. The new testing policy helps ensure individuals have the knowledge to confidently offer value in the business world.

Certifies Scrum Professional

The intent behind the CSP certification program is to offer a clearly defined and well-respected credential in the Agile community, recognized as the primary credential for Scrum Professionals and sought by the employers who hire them.

Certified Scrum Developer

A Certified Scrum Developer is someone who has demonstrated through a combination of formal training and a technical skills assessment that he or she has a working understanding of Scrum principles and has learned specialized Agile engineering skills.

Certificate of Appreciation

Given to me for the participation in knowledge transfer in my company
