Stephen J. Andriole, PhD

Thomas G. Labrecque Professor of Business Technology | Villanova School of Business at Villanova University

Villanova, PA, US

Stephen J. Andriole, PhD, is an expert in emerging technologies and business technology strategy.

Biography

Dr. Steve Andriole is a go-to media source for all things related to the future of technology and business. He teaches strategic technology, innovation and entrepreneurialism at the Villanova School of Business, and his areas of expertise include cloud computing, social media, emerging technology trends, virtual and augmented reality and business technology strategy. Dr. Andriole also serves as an industry and government consultant on all aspects of digital technology and can speak in-depth about the development, application and management of information technology, as well as digital transformation and the adoption of emerging technologies. He is former Director of Cybernetics Technology at the Defense Advanced Research Projects Agency (DARPA) and has founded and co-founded several technology companies. Dr. Andriole is a prolific author and has published 35 books and more than 500 articles, monographs, reports and book chapters. Dr. Andriole frequently presents the results of his research at academic and industry conferences and symposia; he also frequently speaks at corporate events, off-sites and strategic planning sessions on technology management, technology trends and digital transformation.
