

Susan Desaulniers

Senior Director, Cardiovascular & Metabolism at Consulate General of Canada (CTA Boston)
Cambridge, MA, US

Susan Desaulniers is an expert in developing leading global clinical programs that protect people from infectious diseases.

Biography

Susan is passionate about leading Global Clinical Programs that protect people from infectious diseases. She has built trusted relationships with senior leaders and partnered in delivering a comprehensive product quality strategy and life cycle management process, with a global interface. Susan's strong business acumen enables her to effectively synthesize varying needs across the organization, allocate resources wisely, and analyze the long-term impact of decisions. Through creativity and innovation, she can solve a variety of problems and simplify systems and processes. She enjoys providing direction and alignment, influencing clinical testing activities, managing project leaders, product quality design, and implementation and oversight of methods required to support various stages of drug development.
