Leader project office Creative Content Cirque Du Soleil

Biography

Sylvain is an international project manager specializing in new product and business development. He currently manages the project portfolio of the Cirque du Soleil Creative Content Division for the costume department of new and current shows. In his over 25 years of experience, some of the high-profile projects he has managed include the Beijing 2008 Olympic Games, the Formula One World Championship deployment in China (TV and race), the setup of many joint ventures between Chinese partners and foreign corporations, on top of many other businesses-related projects. He has a solid background and extensive experience in business planning, cost management and the implementation of a project management office for large corporations. He has also worked with project teams for telecom service providers and equipment manufacturers, as well as in IT, TV broadcasting and e-business in Canada, US, Europe and Asia. Sylvain's professional experience is centred on the practical application of Project Management (PM), Value Analysis (VA) and Value Engineering (VE) principles and concepts for improving product and process costs. He is the author of several training materials and videos on project management and is currently teaching evening classes at McGill University.

Testimonials

Mario Henrique Trentim

"Sylvain is a passionate project management professional. He delivered an outstanding presentation at VIII CBGP 2013, in Brazil, about how he manages Cirque du Soleil's PMO. His large experience in mega-projects and portfolios give life to his presentation, full of energy. I recommend him."

Charles Bourgault

I met Sylvain during a PMP preparation course. I was very pleased by his energy, enthusiasm and knowledge for project management. A year later, I hired his service to prepare a custom course for our team of Project Managers to provide them a refresher of the PMP but also to share his passion for the profession. I participated in Sylvain's classes at McGill University as an industry speaker and I am always impressed at how he is able to explain the theory in a very practical way.

Marcel Ekkel

Sylvain is a bright person that has an interesting vision on business development. He is able to link his Project Management skills and experience to bus.development projects...and lead them to success. - His training style is juicy and full of shared experiences for your benefit. He helped me understand project management more in detail. - Sylvain is your man to get your team up to speed
