Business Administration

Accomplishments

Founder - AngelPad

AngelPad is a mentorship program to help technology startups build better products, attract seed funding and grow more successful businesses. We provide an extensive mentorship program to carefully selected startups during the course of 10 weeks. Companies typically receive \$20,000 in exchange for a small amount of common shares. A strong emphasis is also put on helping founders to prepare for demo day, which allows companies to present their idea/vision/product to several hundred investors.
