Jacqueline Lackney

"This program combines the multifaceted nature of the horse and an extensive understanding of what modern corporations look for in training. It was not until I started reading about Innovative Horizons that I began to understand how little I got out of these other trainings. The results are not just tangible?they are immediate and gratifying. I believe the E.A.G.L.E.S. program will revolutionize adult training programs in a corporate setting and bring to the 21st century what Deming brought into the 20th century." -----
