---

## **Biography**

Tim Miller has worked alongside top academic and research teams to set up and develop the Energy and Bio-products Research Institute (EBRI) at Aston University. This included contract and funding compliance, procurement, marketing and research engagement. Tim has supported the work of the institute through a programme of externally funded projects to accelerate sustainable business innovation. He has over 15 years senior and board level experience in technology companies, technical and commercial management, research marketing and consultancy. He has experience contracting in the corporate energy sector for clients such as British Gas, BP, Shell, Texas Eastern North Sea and ICI. He has founded and managed university related start-up companies in the telecoms sector as CEO, executive or non-executive director. Tim worked in place based economic development with Nottingham City Council and with regional development agencies on innovation driven growth, business cluster and network development. He has taken a lead on science park growth and development at Nottingham City Council, with the University of Nottingham and nationally through board membership of UK Science Parks Association. His track record includes winning high value tenders and technology projects in the public and private sectors as well as setting up multi stakeholder teams to manage and deliver results.
