Tim and I have worked together with a client on helping them dominate their competition, and his SEO skills played a large part in making the project successful. I was very excited when I first chatted with Tim. We were having lots of trouble getting our website to function the way we wanted, and furthermore to get some traffic to help offset the costs we had incurred. Tim had an understanding of what needed to be done within a short couple conversations, and he went right to work. He truly has a gift with zeroing in on the problem, and fixing it. We are into this project about 3 weeks now with Tim, and are amazed at the drastic turn around of the project. We are seeing lots of new traffic and targeted clients are finding us and contacting us. Several times Tim asked, "How many new customers do you want this month?", and we gave him a number that we thought was out of reach. We have now exceeded that number and still growing. I recommend Tim for any project you have relating to websites and traffic.
