Biography

Tyler Shouse is the President and CEO of the Freedom Network and Shouse Enterprises LLC. He is also the author of Freedom Now: The Algorithm. Tyler is a true renaissance man from Guntersville, Alabama. Tyler has won many 1st place awards and Best of Show awards for his artwork. He has even had his work, "Radiant Light" featured in The Tunnel at Washington D.C. Tyler has achieved tremendous success as an artist, actor, author, poet, entrepreneur, graphic designer, writer, photographer, internet marketer, graphic designer, video producer, salesman and businessman. Tyler graduated from DAR in 2006. He went on to study business and economics at UAHuntsville. Although many proclaim him a genius and a prodigy, Tyler humbly blames his artistic talent on what he learned from Mrs. Debbie McBride, a now retired Art Teacher from DAR High School; in addition, Tyler attributes his business success to skills he learned from New York Times best-selling author Kevin Trudeau and acclaimed hypnotist Marshall Sylver. Tyler has given public and private drawing, marketing and empowerment coaching sessions to people of all ages and has helped people learn how to paint for the first time, manifest riches in their life, and become permanently blissfully happy. Tyler provides a very effective success coaching and a complete subconscious reprogramming to all people seeking a better way of life. Tyler started the GIFEN Group to GIVE people across the globe the information and empowerment they need to achieve total freedom in all areas of their life.
