

Yenisel Cruz-Almeida

Associate Professor/Associate Director at University of Florida

Gainesville, FL, US

Yenisel Cruz-Almeida's research is focused on understanding age-related pain perception and pain management.

Biography

Yenisel Cruz-Almeida is an associate professor in the College of Dentistry. She also serves as the associate director of the UF Pain Research & Intervention Center of Excellence. Her research interests are related to understanding age-related pain perception and modulation in humans. Yenisel uses multiple interdisciplinary and translational approaches to examine nervous system factors that contribute to the observed inter-individual differences in pain phenotypes and its functional consequences including cognitive and mobility impairments.

Areas of Expertise

Chronic Pain, Translational Pain Research, Pain, Pain related to age
