

Zeynep Tufekci, Ph.D.

Associate Professor, School of Information and Library Science (SILS) at UNC-Chapel Hill
Chapel Hill, NC, US

Faculty associate at the Harvard Berkman Center for Internet and Society, inaugural Andrew Carnegie Fellow, New York Times op-ed contributor

Zeynep Tufekci is an assistant professor in the School of Information and Library Science (SILS) at the University of North Carolina at Chapel Hill with an affiliate appointment in the UNC Department of Sociology, College of Arts and Sciences. She is also a faculty associate at the Harvard Berkman Center for Internet and Society, and was previously a fellow at the Center for Information Technology Policy at the Princeton University. In 2015, she was selected as an inaugural Andrew Carnegie Fellow by the Carnegie Corporation of New York. Tufekci's research interests revolve around the intersection of technology and society. Her academic work focuses on social movements and civics, privacy and surveillance, and social interaction. She is also increasingly known for her work on "big data" and algorithmic decision making. Originally from Turkey, and formerly a computer programmer, Tufekci became interested in the social impacts of technology and began to focus on how digital and computational technology interact with social, political and cultural dynamics. Her work has appeared in a wide range of outlets, from peer-reviewed journals to traditional media and blogging platforms. Her forthcoming book Beautiful Teargas: The Ecstatic, Fragile Politics of Networked Protest in the 21st Century, to be published by Yale University Press, will examine the dynamics, strengths and weaknesses of 21st century social movements. Tufekci is currently a contributing opinion writer at the New York Times and also publishes essays at The Message on Medium, a new media platform. She can be found online on Twitter as @zeynep.
